

FIERCE BATTLE

Is Raging Around Liao Yang

KURTAOPKIN MEETS ALLIED ARMIES.

Four Hundred Thousand Men Engaged in the Fight. Japs Capture Guns

RUSSIANS SUFFER IN BATTLE OF LIAO YANG.

St. Petersburg, August 30.—A dispatch from General Sakharoff, dated from Liao Yang at 10 a.m. today, says: "The main Japanese attack is being directed against the Russian centre and right, where the Russian losses have been the heaviest. The Japanese posted numerous artillery within range of all the Russian positions during the night. A fire was opened at five a.m. and by nine o'clock the Japanese were close to the Russian positions." General Sakharoff reports that a large Japanese force is advancing northward along the Taitsu river valley, northwest of the railroad. The latest reports received by the war office indicates that the battle of Liao Yang will probably extend for several days. The Japanese are directing their energies to bombarding segments of the circle of defensive positions occupied by the Russians. The latter have already suffered heavily from the hail of shells.

JAPS LOSE MEN, BUT CAPTURE GUNS.

Tokio, August 30.—The Japanese lost two thousand men killed or wounded at the battle of Anping. The Russian losses have not been estimated, but are said to have been heavy. The Japanese captured eight guns at Anping and eight at Anshan.

FIERCE BATTLE RAGING AT LIAO YANG.

Liao Yang, Aug. 31.—The heaviest battle of the war is raging today around Liao Yang. Following the rearward action which Kurapatkin fought in the region around Anping and Anshan, he either elected or had been forced to give battle, meeting the attacks of the combined armies of Kuroki, Nodzu and Oku. Despatches from the battlefield show that at dawn today the Japanese opened a terrific artillery fire, directed mainly against the Russian centre and right. After four hours of a galling shrapnel fire, the cannonading slackened and at nine o'clock the Japanese advance began.

INCREASING IN INTENSITY.

The Associated Press despatches sent from Liao Yang show that the battle is increasing in intensity. The Japanese are pressing forward until at one point, their advance developed into a hand to hand fight. The Russians repelled them six times with bayonets. These Associated Press despatches and Russian official reports indicate that the Russians occupy a semi-circle of about nine miles in length, protecting Liao Yang. The centre and right wing of this line is receiving the brunt of the fighting up to the last advice. So far reports do not indicate the trend of the action. Reports to the Russian war office say that the battle will extend over several days. The combined forces engaged are estimated at between 300,000 and 400,000 men.

TO ENTERTAIN MINTO

ARRANGEMENTS MADE

Will Officiate at the Laying of the Corner Stone of the new Edmonton Public School

It was intended to discuss plans for a reception to and the entertainment of Lord Minto, Governor General of Canada, during his visit to Edmonton, on September 7th, at the meeting of the city council last night. Only the Mayor and Councillors Picard and Ross turned up and no meeting was held. These three, however, constituted themselves a committee to act in conjunction with the president of the Board of Trade and the chairman of the school board to make arrangements for the Governor General's reception.

At his car comes over to Edmonton, he and his party will be met at the station and taken for a drive to the points of interest about the city and immediate country surrounding. If the party drive from Strathcona, he

will be met at the top of the hill at Edmonton.

If possible, the Governor General will officiate at the laying of the corner stone of the new public school on MacKay avenue. The excavations for this school has been completed and a gang of men are now at work on the foundation, and it is expected that it will be far enough advanced to have the corner stone laid on September 7th. The mayor and council of Strathcona, the member of the Dominion parliament for Alberta and the local members of the Territorial Assembly will be invited to be present. The ceremony will be largely a school affair. The school children will be present under charge of their different teachers, and will sing patriotic songs and otherwise take part in the proceedings.

The council is now in communication with Major Maude regarding final arrangements for Lord Minto's reception.

From Edmonton the Governor General will ride horseback overland to Prince Albert accompanied by a small escort from the Royal Northwest Mounted Police.

LABOR DAY**WILL BE CELEBRATED**

On a Splendid Scale by the Trades Unions of the City in the Exhibition Grounds

Preparations have been completed for the labor celebration on Monday, September 5th. It promises to far exceed the very successful attempt of last year. The Trades and Labor council of Edmonton have charge of all arrangements and everything possible will be done to make the celebration, even apart from its union aspect, a great success.

The parade will form on the market square on Fraser avenue, thence south to Jasper avenue, up Jasper to McDougall street, west along College avenue to Second street, north to Jasper avenue, and east to McDougall street and thence down the Ross grade to the Exhibition grounds. The following is the order of parade: Trades and Labor Council, Union band, bricklayers and masons, plasterers, carpenters, lathers, painters, fitters, plumbers, steam engineers, cigar makers, printers, and Fire Brigade. After the Fire Brigade will come the different floats followed by citizens in carriages.

Commencing at 10.30 o'clock, speeches will be delivered at the Exhibition grounds. Among the speakers will be Mayor Short and Mr. John McLennan.

Dinner will be served in the dining hall, which will do away with the necessity of leaving the grounds at noon hour.

Efforts are being made to have a baseball match between Edmonton and Fort Saskatchewan.

In the afternoon, commencing at 1.30 o'clock, the following program will be given:—

Half mile pony race, 2 in 3, \$20, \$10.

Quarter mile pony race, 2 in 3, \$20, \$10.

Gentleman's road race, one mile; mounted driving whip.

Ladies' saddle race.

Half mile bicycle race, \$10, \$5.

One quarter mile bicycle race, boys under fourteen, \$4, \$2.

One hundred yard dash, open, \$10, \$5.

Firemen's race in uniform, 220 yds., \$10, \$5.

Wheelbarrow race, blindfolded, \$10.

Fifty yard dash, boys under 14, \$3, \$2.

Fifty yard dash, girls under fourteen, \$3, \$2.

Half mile race for ponies that have not won a race this season, \$10, \$5. The pony winning the first race will be barred from the second.

One of the most interesting events of the day will doubtless be the tug-of-war between a picked team from Edmonton and Strathcona. Seven dollars and a half will be given the winners. It is stated that a footrace will probably be run between Mitchell, a professional racer, who has been in the city for some time, and Mooswa, the well known Indian runner from Lac Ste. Anne. An effort made to get on a race between these two during the Exhibition failed.

The Strathcona carpenters' union will be present in force, headed by the Strathcona band. With two bands there should be an abundance of music. Special trains will run between the two towns, leaving Strathcona at 9.30 a.m., and 1.15 p.m. and returning about 7 p.m.

To meet the expense of getting up the celebration, an admission fee of twenty-five cents will be charged for adults and ten cents for children.

G. T. P. for Calgary

After leaving Edmonton on Friday last, the special train of Grand Trunk Pacific officials made a stop in Calgary. In an article on their visit, the Herald has the following:

Frank W. Morse, one of the leading factors in the Grand Trunk Pacific, observed that Calgary is too important to be overlooked by the new line. This is taken to mean that the subject has received more or less serious discussion among the members of the party on their western trip.

The conversation about the country between Calgary and Edmonton was very general. Different members of the party expressed satisfaction with the evidence of industrial and agricultural prosperity along the line north.

No Rust in Territories

Hon. Dr. Elliott, Commissioner of Agriculture for the Territories, in an interview at Regina regarding the reports of rust in wheat had this to say: "During the past two days I have driven over fifty miles through wheat fields, and have talked with scores of farmers and can say positively, both from what they tell me and from personal observation, that there will be very little damage from rust in the eastern portion of the Territories. This covers what is undoubtedly the heaviest wheat producing part of the Territories. Dr. Elliott stated that he had seen thousands of acres where there was not the slightest trace of rust even on the leaf, which is rather unusual at this season. From all available information obtainable the damage from rust in the Territories, as a whole, will be very small, if it is a factor at all."

Can't Sleep?

Here's a prescription that never fails to bring sound, refreshing sleep: Every morning, before breakfast, take a foaming glass of ABBEYS SALT. Take it faithfully—give it a fair chance—and it won't be long before you "sleep like a babe" and feel "a hundred per cent. better" in every way.

Abbey's, being a granular salt, contains no alcohol; liquid preparations may.

Druggists, everywhere, sell it. 25c. and 60c. a bottle.

Abbey's Effervescent Salt

Just a few words further about

Steel Ranges

Ross Brothers, Limited, have Steel Ranges from \$30 to \$60. They have a first class full No. 9 Steel Range,

Made in Canada

With Copper Reservoir, High Enclosed Closet, fitted to burn either wood or coal at \$48. This Range has an extra large fire box and is well suited for town or country use. We also have ranges without high closets very much cheaper, that have very large ovens, large fire places and are built especially for farmers use.

It seems absurd to us that Steel Ranges can be sold at prices nearly double what we are asking, that have not got nearly as many good points to recommend them as our \$48 Ranges. Our \$48 Range is heavier, larger both in oven and fire place,

And we Guarantee

That our Castings will not warp out of shape nearly as soon as some of the much vaunted higher priced Cook Stoves or Ranges

Why, you fit up a whole kitchen with us for nearly the price you are asked for a Cooking Stove or Range alone. We will convince you of this fact if you want a Range and will be pleased to show you the goods at our store.

WHICH IS THE FRIEND?

Under the heading "Opening the Campaign," the Winnipeg Tribune defines its position on the question of railway competition for the west in the following editorial:—

"It was a very shrewd political move on the part of the Ottawa government to get Mr. Chas. M. Hays, and his G. T. P. entourage to open the political campaign in the west. The 'Liberals' rely upon the cry of a new railway, the expenditure of money galore, and the holding of high jinks generally in the west to help carry them through. They think they understand the west and that the cry of having lashings of money which the east supplies 'blown' in the west, will have the effect of rallying the 'boys' to the Liberal standard. Such a cry may influence a few who are here not for the country's good, but for the purpose of grabbing every cent they can lay hands on, and then hiding themselves away to some other place. The sober thinking people, the citizens who reason things out, know that the only solution to the transportation question, is a transcontinental line owned and operated by the government or people.

"On such a line rates can be fixed by the people at a figure in which watered stock and bonds have no influence. With the power to fix the rates on one line, the government can regulate them on all lines. To go in for such a scheme as the prodigal G. T. P. deal with all its stocking and bonding is tantamount to giving a drunken man a big brandy and soda with the expectation of making him sober. His last state is worse than his first." The question whether the North-west is to remain interminably under railway monopoly or have complete railway competition is the most practical and immediate political question that the electors of the west have to face. The government of the day stakes its existence on the success of the project to give the Northwest a competing transcontinental railway in eight years. The Tribune meets that proposal by the editorial in question. Which is the friend of the North-west?

100 FRENCH IN ONTARIO, TOO ENGLISH IN QUEBEC

While the newspapers and public men of the opposition party in Ontario are most vigorous in inciting race prejudice among the voters of that province against the premier by persistent misrepresentation, the same party in the province of Quebec is just as busy in the attempt to arouse religious prejudice against him there. If the Toronto News is to be believed, The News has had a special correspondent overlooking the political situation in Quebec and this is a part of his report:

"Both in Montreal and Quebec I learned from the Conservatives that they expect to receive aid from the church. They seem to be depending upon that influence, exerted with aid due secrecy, to turn the tables in the province. Statements of important ecclesiastics are quoted to the effect that Sir Wilfrid has deceived the church by the way in which he settled the Manitoba school question. These men aver that he promised more than he has granted, and that, failing after long waiting to implement his pledges, ecclesiastical influence will be a factor in the next contest. My informant on this point explained that one argument that will be used against Sir Wilfrid in carrying out such a plan is that the church can get more from an English premier than from one who is French, and therefore closely and jealously watched by the other Frenchmen. In effect, that while it is a great compliment to have one of the French race for Premier, international considerations lead the church to prefer an English speaking Prime Minister.

THE RAILWAY THE ISSUE

The opposition press insists on making the Grand Trunk Pacific the main issue of the next elections. The Victoria Colonist has an Ottawa despatch which says:

"Those here who believe there

will be no general election this autumn, and they are not a few, base their opinion on the improbability of the Grand Trunk Pacific being allowed to float their bonds in the present state of the London money market, which is especially shy of the G. T. P. project in view of the probability of the government being defeated at the elections. Financiers of London are telling the G. T. P. people to wait until the Dominion elections are over."

This is stating the case as plainly as words can do it that the construction of the railway depends on the success of the government when the elections occur.

A SPECIMEN CASE

The breeze of public favor in the United States is not always blowing towards the North-West. A recent issue of the Dillon, Montana, Examiner, a copy of which was forwarded to the Bulletin by a friend there, contains the following:—
THE ALBERTA COUNTRY IS NO GOOD.

A Returning Settler from Idaho Claims It is no Place for the Farmer to Go as the Seasons are Short.

People returning from the Alberta country bring back reports that are anything but rosy. Here is the way the Northern Idaho News sizes up the situation, after listening to the talk of a northern visitor:

"T. K. Brown, who sold in Sandpoint a year ago last spring, to go to the Alberta country, arrived in town on Saturday. Mr. Brown and family will go to Dayton, Wash., to settle. Mr. Brown does not think much of the far-famed Alberta country—the northern part at least. Since leaving here he went pretty well over it north from Calgary, and especially the Peace River country. He stated to the News Monday that the country's seasons were all so short that it was almost impossible to harvest a crop. Almost every year wheat has to be harvested from under the snow, and a heavy snow-storm in August is not uncommon. And at that wheat does not bring a good price. The best prices are paid for fatted cattle and hogs, and drovers and some cattlemen are making money but there is no room for the small farmer."

The quotation is given not for its intrinsic value, but to let all and sundry know that there must be no relaxation of effort if Northern Alberta is to be kept before the favorable attention of prospective settlers in the western states. We are apt to think that the facts will speak for us; but the above quotation shows that facts have nothing whatever to do with the case when the returned tenderfoot catches the ear of the Montana or Dakota editor.

C. N. R. GRADING

In a letter to the Bulletin, D. McTavish, who has a sub-contract on the grading of the Canadian Northern Railway near Battleford, states that the present season has been an ideal one for grading, and that full advantage has been taken of it to actively push the grading operations. He has a sub-contract from J. B. Bright, and has a particularly fine piece of grading. He expects to have this contract completed in two weeks or less, when he expects to move his grading outfit to within one hundred miles of Edmonton.

Mr. McTavish states that Malcolm Macdonald has a splendid contract, a good force of men, and teams, and is making first-class progress.

Balm of Gilead and Cottonwood

Now-West Partner:
Inquirer, Edmonton, Alta.—"Are the Balm of Gilead and the cottonwood tree the same? 2—Is the cottonwood tree from which the down flies in the spring? If not, from what tree does it come? 3—What shaped leaf has the cottonwood?"

Answer—1. No, although quite a number of people call the Balm of Gilead by the name of "cottonwood." The trees belong to the same botanical genus, but there is considerable difference in their appearance.

2. The cottonwood bears a seed with a downy covering which blows about considerably. The seeds from the common white poplar are similar in this respect, and as the only cottonwood trees in the Edmonton district are those which have been planted out around a few houses, it is likely the down from the common white poplar which has attracted your attention. 3. The stem of the poplar upon which the cottonwood leaf is very decidedly flattened, thus differing from that of the Balm of Gilead, which is round. The leaf of the cottonwood is almost of the shape of an equilateral triangle, that is to say it is broad at the base and its width is just about equal to its length. It is slightly incurved at the top into a short sharp point. The margin is distinctly serrate and sometimes has incurved hairy teeth.

St. Albert Crops

Crops in the St. Albert district have advanced to a very great extent during the last couple of weeks. A great quantity of wheat and barley has been cut and is in stock. Adjoining fields show considerable difference in the yield, showing the results of careful and careless farming. Some splendid crops of wheat are to be seen just west of the village. Several half-breeds in this district have first-class fields of wheat, and are busy cutting and stacking them. In almost every case the yield is very heavy. Field after field of ripe oats are to be seen and in most cases binders are ready, if they have not already started to cut. The St. Albert district will produce a very large yield of grain this year.

N. LECLERC, - PROP.

MINERAL WEALTH

OF EDMONTON DISTRICT

Underlaid with Gas, Salt, Coal and Oil
Prospector Returns East

Charles Henry Tyrell, of Ottawa, who has been superintending an exploration expedition in the Edmonton district in search of coal deposits and gas, has left for the east. Mr. Tyrell has been in the employ of a syndicate, and when seen by a reporter, of a Winnipeg paper would say nothing, giving as an excuse that his discoveries were the property of his employers.

He did say, however, that in his opinion there should be plenty of gas salt, coal and oil in Manitoba and the North-West Territories.

Many indications of these resources were discovered in various places, and it is likely that Ottawa capital will be subscribed to develop it. Up to now, says Mr. Tyrell, the surface only has been tapped, but where conditions similar to those which prevail in the North-West are found, there are usually things below the ground, in Russia the whole lands produce oil and gas, and there is no reason to believe that the prairies are not underlaid with a great flow of petroleum.

I found large chunks of boiler in the Edmonton district. These samples I have with me, and from what I can discover, I am led to believe that the Pennsylvania wells are only the eastern extremity of an immense vein which extends from the far North-West, passing just north of Edmonton in a wavy line, almost touching Winnipeg and going east into the states in the vicinity of Kingston or Ogdensburg, which are on the western extremity of a new limestone formation. From Winnipeg the line of oil deposits must run south and lodge the Huronian rocks which extend through Western Ontario.

HOUSE BURNED

The house on the Mathers' farm at Horse Hills, about eleven miles from Edmonton, was burned to the ground recently, entailing a loss of about \$100. It was a two-story frame structure, and was unoccupied. It is said that a party of people who were doing road work in the district camped at this house and left a fire burning in the stove. On returning all that was left of the building was a pile of ashes. The party lost guns, several coats, and other things that had been left in the house.

The Late Mr. David Nicolson, Wick

The Northern Herald, Wick, Calhoun, August 4th:—
"Yesterday a painful feeling was occasioned in the town and county when it became known that Mr. David Nicolson, late parish schoolmaster of Wick had died at his residence, Montpelier House, this morning at five o'clock. For a considerable time Mr. Nicolson had been in indifferent health but it was only on Friday evening that his illness became serious. For a time he seemed as if likely to recover, but on Monday he relapsed into unconsciousness and peacefully and painlessly passed away, as stated, on Wednesday morning.

Mr. Nicolson was a native of Calhoun, where he was born nearly 70 years ago. From his earliest days he was a keen student and a lover of books. Discontinuing on an educational career, he passed through two years' training at Moray House Training College, from which he emerged as the most distinguished student of his year. After a time in London, Mr. Nicolson, in 1867, was appointed by the

heritors to be headmaster of the Wick Parish school, and here he continued for nearly thirty years. In many respects the school long held a unique reputation, especially for modern languages and art. And to-day there are hundreds of pupils scattered over the world that look back with satisfaction and pride at the sterling education they received in the school at the Kirkhill.

"Mr. Nicolson, too, was a man of many studies or hobbies as he loved to call them. He was the acknowledged authority on the botany of the county, and when the Dick collection of plants at Thurso required cataloguing and arranging, Mr. Nicolson's services were at once secured. In later years he devoted much attention to the dialect and place names of the county where his linguistic abilities stood him in good stead, and in all such matters his authority was the most popular and sound.

"When he retired from active teaching he threw himself with his accustomed zeal into Town Council matters and occupied the congenial post of Dean of Guild for seven years. It is no exaggeration to say that Wick never had a better dean or one that brought such knowledge of localities to the discharge of his important duties.

"In many other respects Mr. Nicolson was one of our leading men. He was Session Clerk of Wick for over thirty years, and secretary of the Calhoun branch of the Educational Institute for twenty. The general body conferred upon him his Fellowship degree and elected him its vice-president. His familiar figure will be much missed in our streets, for no man commanded by his rare qualities more sincere respect.

"Mr. Nicolson was predeceased by his wife over twenty years ago, and is survived by a family of seven. Two of his sons have chosen the educational profession, the eldest being a master in George Watson's College, Edinburgh, and the youngest, English Master in Perth academy. The second son is in Canada. Two of his four daughters are married. The funeral takes place to-morrow, Friday, to the new cemetery. It is understood that the Town Council are to attend in their official capacity.

The deceased was a brother of the late Wm. Nicolson (and Mrs. John Harrod, Sturgeon, and father of Frank W. Nicolson, Edmonton.

TELEGRAPHIC

ELECTION DAY

SPECULATION

Arrangements under way which point to no election before February.

Bulletin Special Dispatch.

Ottawa, Aug. 31.—Regulations have just been issued for the preparation of the voters' lists for the unorganized districts of Ontario. A longer delay is not compatible with theory that the elections will take place in November.

Commencing August 28 a month's clear notice is to be given, then the lists are to be posted, and it will be thirty days before an appeal can be dealt with. This will then occupy another month, after which the revised list must come to Ottawa to be printed. This arrangement does not look like an election before February.

OTTAWANS BITTEN

COMPANY FAILS

Enticing Propositions were held out and Capital Citizens were easy

Bulletin Special Dispatch.

Ottawa, August 31st.—The International Mercantile Agency, for which a receiver was appointed, has hit a number of Ottawa people hard. Over \$100,000 of the stock of the company was taken here. The company has been in existence for two years and inducements held out by those selling stock were very enticing.

NO APPOINTMENTS

WILL BE MADE

In Connection with the G. T. P. until Party Returns from the Pacific. Fireman Killed.

Bulletin Special Dispatch.

Ottawa, August 31st.—The Transcontinental Railway Commission will not attempt to deal with appointments to positions on the survey and engineering staff until the return from the Pacific of Messrs. Hayes and Walworth and other leading people interested, who are now on a tour of inspection of the Pacific coast with a view of making a selection for a terminal on the Pacific.

In a fire at Beardmore's stables on College street a fireman named Wallace was fatally hurt by a fall from the roof.

TEN YEAR OLD LAD

SAVES COMPANION'S LIFE

Dived into twelve feet of water and brought him to land. Exclusive tobacco contracts.

Bulletin Special Dispatch.

Ottawa, August 31.—Clifford Sifton, the ten year old son of the Minister of the Interior, saved the life of his cousin, Arthur Burrows, a four year old lad, from drowning in the St. Lawrence. Young Sifton saw Burrows slip into the water and dived after him in twelve feet of water, bringing him safely out.

The Minister of the Interior has notified the American Tobacco Company and the Empire Tobacco Company, that if they have not abandoned their exclusive contracts, with their customers, then their license will be cancelled.

CROP CONDITIONS

THROUGH THE WEST

Are the best for years. Very slight damage by rust in Manitoba.

Bulletin Special Dispatch.

Winnipeg, August 31st.—The weekly crop reports issued to-day by the C. P. R. and the C.N.R. are that the past week has seen a great improvement in crop conditions. At many points harvesting has started, and will be general next week.

Weather conditions, with the exception of the past few days, have been all that could be desired, and the reports indicate that while in some places rains which were not needed have interfered with harvest, there has been no damage done. At no points has rust done damage to the extent of more than two per cent. Frost was reported at Oakville, the only point so far visited.

CALGARY HORSE SALE

POSTPONED TILL SPRING

Dullness in the Horse Market the Cause. Two Horses Must be Sold

Bulletin Special Dispatch.

Calgary, August 31st.—The Territorial Horse Breeders' Association have decided to postpone their proposed fall fair and sale of horses until next spring. This is deemed advisable owing to the dullness of the horse market at present. The association wishes to make a 'good night, and the sale would not be held in the spring unless two hundred horses are entered in all classes. All horses must be shaker broke at least.

YOUNG MAN DROWNED

AT RAT PORTAGE

Returning to camp from village his boat upsets. Body recovered.

Bulletin Special Dispatch.

Rat Portage, August 31.—A Patterson, aged twenty-one, in charge of the liquor department of the Hudson's Bay company's store, left the theatre last evening after the performance to return to Coney Island, where he was camping. Not appearing at business at the usual time this morning, enquiries were made and his boat found floating bottom upwards in the bay. A couple of charges of dynamite exploded, were not successful in bringing the body to the surface, but dragging brought his corpse up.

HON. JAS. SUTHERLAND

WILL NOT RETIRE

Will go to Ottawa shortly to resume active work in his department.

Bulletin Special Dispatch.

Woodstock, Aug. 31.—Hon. James Sutherland says that he is not going to resign the portfolio of public works. He is nearly restored in health and will go to Ottawa shortly.

A NOVEL RIDE

BY AUTOMOBILE

Over the Canadian Pacific Railway Track from Port of the Coast

Bulletin Special Dispatch.

Montreal, August 31st.—With special wheels fitted to his machine, Chas. J. Glidden, of Boston, will speed his automobile along the Canadian Pacific Railway tracks from Port of the Coast, to Vancouver. He will probably be at Port of the Coast on September 8th.

NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With Day's Most Important Happenings.

Winnipeg, August 31st. Snow fell in Minnesota. Harvesting is half over. Lord Minto and party passed through Winnipeg.

The railway commission held a sitting at New Westminster. There is no settlement of the Chicago stock yards strike in sight.

The C. P. R. will inaugurate the Red Card freight system Sept. 15. Mr. Turf, positively denies that he has any intention of running in East Assiniboia.

An Ohio farmer was blown to atoms by one hundred pounds of dynamite exploding in his buggy.

Russia has arranged a \$250,000,000 loan with German bankers at a higher rate of interest than its last flotation.

Another Boxer rising is threatened. American missionaries are seeking safety in flight. The local Chinese officials refuse to protect them.

A delegate from the king of the Belgians will ask for the good offices of President Roosevelt to restore peace between Russia and Japan.

VICE-REGAL PARTY

AT SAULT ST. MARIE

Public reception tendered their Excellencies. Journeying westward

Bulletin Special Dispatch.

Sault Ste. Marie, Ont., August 30.—Owing to delays along the north shore, the vice-regal party, Earl and Countess of Minto and Lady Eileen Elliott arrived here about midnight and the public reception which was to have been tendered last evening was held today. The party left at noon on the train for Sudbury, there to connect with the Imperial Limited and to continue their journey west.

BAD SMASH UP

ON THE GRAND TRUNK

Freight train on siding projected on to main line and express train collided with it.

Bulletin Special Dispatch.

Srathroy, August 31.—A bad smash occurred on the Grand Trunk Railway at Wyoming today. Two freight trains for the east left Sarnia, tunnel and were crossing the Chicago fast express at Wyoming, which was running one hour late. The freight trains in taking sidings ran into another and one of them which was an iron ore train, had one car too far on the siding so that when the express came along she ran into the end of this ore car, cutting loose the cab on the express engine, smashing all the windows of the vestibule train, and the wheels of the engine of the Chicago express.

Scutch Grass

Nor'west Farmer.

Enquirer, Wapella, Assa.: Can you or any of your readers give me any information as to the treatment of "scutch grass" in summer fallowing? Some people claim that by disc harrowing after plowing the roots will spread and grow with renewed vigor. Is such the case, and if so, what is the proper treatment?

Answer: "Scutch grass" is one of about six or eight common names given to what is more generally known as "couch" or "twitch" grass, botanically known as *agropyrum repens*. This grass is very troublesome in Ontario and England, and shows considerable persistency in some parts of Manitoba. A worse grass in the West, however, and one which is often confused with the real couch grass is sweet grass, (*Hierochloa borealis*), and it is not at all unlikely that this is the kind which is giving the trouble. Different treatment is required for the handling of these two grasses. Couch grass is a bluish looking plant with no special odor, and bearing its head during July, ripening probably about August 10. The spike bearing the seeds is slender, somewhat resembling in shape a very starved head of bald wheat. The sweet grass, on the other hand, has sweet smelling leaves of a much more decidedly yellowish tinge, and the seeds are borne about the end of May in a panicle very similar to a head of oats. The sweet grass is a deep rooted plant and the plowing should be done deep enough to turn

its roots and root-stocks up to the sun. If this is done about the 5th of June and the land is at once heavily seeded to barley, it will in most years clean the land pretty well. Where the piece of land is very bad, however, and wet weather prevents the working of the land at that time some farmers plow their fallows a couple of times about a month apart and firm them down by some surface cultivation afterwards. The difficulties with the latter plan are the liability to loosen the land too much and the chance of leaving it too dry for next year's crop. More shallow plowing may be given for couch grass. In fact, if it is plowed too early, during its strong growing season, and too much earth be turned over on top of its shallow roots, they are apt to send up new stalks in the reverse direction which will appear quite strong in the fallowed land later. Unless for the killing of other weeds, neither of these grasses should on any account be cultivated during wet weather, as the jointed root-stocks are sure to be dragged about the fields and lead to the increase rather than to the reduction of the plants. We would think, however, that the disc would be about the least likely to give trouble in this way of any implement which could be used.

The Formal Opening of

FIT-REFORM

WARDROBE

Was a most gratifying Success.

Not only the men, but ladies, too, found much to admire in this ideal showing of Winter Suits and Overcoats. And after we have demonstrated the faultless quality of the fabrics—the peerless tailoring—the perfect fit of every garment—and explained just why “FIT-REFORM” CLOTHES were tailor-made yet ready to wear, there was only one exclamation: “How can you sell such splendid clothes for so little?”

We explained that, too—how, by making and selling thousands of Suits and Overcoats where others sell a dozen or two, we keep the cost of tailoring and retailing down to the minimum.

We had no idea of selling a single garment on “Opening Day.” We wanted you to SEE, first of all. But so many men found just the Suit or Overcoat they wanted, it fitted so perfectly, and the price so much LESS than what they had expected to pay, that they purchased it on the spot.

If you didn't get the chance to attend the “Opening,” come to-day or to-morrow, or when you can

COME TO SEE, YOU ARE WELCOME ALWAYS
whether you buy or not. Suits and Overcoats
\$12.00 to \$30.00. Trousers \$3.50 to \$6.00

J. H. Morris & Co.

Edmonton, N.W.T.

Manitoba Crop Report

Toronto World, Winnipeg special, August 22.—After several days of cold, damp weather, the warm spell has returned and is much more suitable to ripening grain for early harvest. Experts, however, are rather alarmed at the sudden change, fearing that a damp heat may give free headway to rust. Still, considering the wheat crop as a whole, it is better that certain sections suffer severely by rust than that the whole country be exposed to early frosts, which are extremely probable if harvesting operations be too long delayed.

Ogilvie's report makes the start of wheat cutting general by August 27, and it is useless concealing the fact that this is dangerously late for a start. Two thousand harvesters arrived from Ontario tonight as a first contingent and will have no difficulty in securing immediate employment.

The Ogilvie Flour Mills company have just received by wire from seventy of their ninety-five elevators in Manitoba and the territories, reports giving the position of the wheat crop to date. The agents were requested to give particular attention to damage from rust. These reports are, on the whole, reassuring.

Out of seventy stations heard from thirty-nine report no damage at all; sixteen report slight damage, and fifteen report damage varying from 10 to 50 per cent. The districts most affected appear to be the Souris branch and the western half of the Deloraine branch.

Taken as a whole, these reports indicate an average of under 10 per cent. in Manitoba and practically none in the territories. The average yield from these stations figures out at 19 bushels per acre, and the probable average date of start of general harvesting, given favorable weather, to be August 27.

Orange Meat

The Premium Food

THREE YEARS OLD

WHEN the tobacco I have personally selected in Cuba is delivered at my factory, I begin a special treatment to still further cure it—develop its delightful aroma.

This special treatment requires two to three years, depending on the "crop."

I work it thoroughly—through various processes of fermenting and drying in specially made apparatuses that enable me to keep the tobacco in each process at certain fixed temperatures and moist or dry at such a degree of humidity—necessary to bring out the virtues I insist on in each cigar.

By having the filler so aged and treated, I make my Pharaoh a smooth, palatable smoke—one with a delicate incense-like flavor and very even combustion.

The binder and wrapper are the Connecticut Broadleaf and the imported Sumatra respectively—both tobaccos that delight the epicure.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three plans:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act, and the amendments thereto, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres substandard.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

LONDON, PARIS, NEW YORK AND EDMONTON

LOCAL

—Train on time.

—The Leduc creamery has begun operations.

—Lactose will observe Civic Holiday on September 15th.

—A. W. Mitchell has opened up a vegetable market at Lacombe.

—Rev. Father Felix, of the United Greek Catholic mission at Beaver Lake, is in town.

—Mr. Daly, of Spruce Grove, reports that most of the wheat on Stony Plain is cut.

—The machinery for the Northwest Gas and Oil company has been shipped to Edmonton from Toronto.

—The city council will meet Friday evening. Last night's meeting failed to materialize for lack of a quorum.

—W. E. Stone, the Carstairs rancher who was accidentally shot a few days ago, died on Monday from a hemorrhage.

—The program for the fire brigade concert on the evening of Labor Day has been arranged for. A first-class program is guaranteed.

—Three special trains of Knight Templars passed through Calgary Monday on their way to the great triennial convocation in San Francisco.

—H. Lang, of Nampa, reports today that most of the wheat in the Sturgeon settlement is cut, the binders having been very busy this week.

—Vegreville fall fair will be held on Friday, September 10th. Great preparations have been made to make this exhibition one of large proportions and of great success.

—About six hundred thousand brick have been turned out at the St. Albert brick yard this year. An even larger amount could have been turned out had the demand been larger.

—A teacher is required immediately for the Edmonton public school staff and another will be needed October 1st. This brings the teaching staffs of the Protestant schools up to 20.

—Samuel Barr, of Mossy, Ont., arrived in the city last night. He has been looking over the west, devoting special attention to its butter and cheese manufacturing possibilities.

—The two old boilers at the power house are being removed this week owing to the expected arrival of the new boilers. The old ones were 150 h.p. each, the new ones are 300 h.p. each.

—The rooms formerly occupied by the Alberta college, in the Masonic hall, on First street, will be used for public school purposes until the completion of the new McKay avenue school.

—The Calgary Herald remarks that when a game law is evolved that will stop the useless butchering of the Alberta water fowl, legitimate sportsmen will have progressed several degrees.

—A special meeting of the members of Edmonton steam engineers' union will be held at the fire hall Thursday evening, September 1st, at 7.30 o'clock for the purpose of making preparations for Labor Day.

—Mr. Vernon Barford returns from his vacation on Thursday and will resume work with his piano and organ pupils next week. Mr. Barford's studio is in the Macdonald block at the corner of Second street and Jasper avenue.

—C. E. McManus, is moving his boot and shoe store from his former premises on Jasper avenue west to Jasper avenue east to the store formerly occupied by the Morinville Milling company. The store has been generally renovated.

—J. Neill, of Clover Bar, brought a couple of splendid samples of wheat into town yesterday. One was left with C. W. Sutter and the other with Craik and Lee. It is of splendid sample and is expected to yield forty-five bushels to the acre.

—Selkirk Record: James Smith, contractor, was home from the west for a few days this week. His outfit has been working near Saskatoon but having finished that job, is moving about one hundred and fifty miles west of Battleford on a new contract.

—A special excursion rate of \$95.05 from Edmonton to Toronto via the C. P. R. and good for three months has been announced. Tickets will be sold Monday, Tuesday and Wednesday, September 5th, 6th, and 7th, and ten days will be allowed to reach the destination.

—Work has commenced on a frame warehouse at the corner of College and First streets by Rev. J. R. Evans. It will be used for the storage of the live stock which the farmers of the city have already been converted. The building will be 75 by 100 feet.

—A farmer residing a few miles from the city was in town to-day driving a team of horses, that had

very safe shoulders. Chief Deane had the team unharnessed and inspected by a local veterinary, after which he laid information against the owner of the team.

—Work on several of the buildings about the city is advancing very slowly owing to the difficulty of getting supplied with iron structural work from the east. The great fires of Toronto, Baltimore, etc., have created such an enormous demand for this that it is difficult for the smaller buyers to get their orders filled.

—No work is being done on the large church at the St. Albert mission this year. Last year the basement of the church was constructed. It is a high building, said to be easily the largest church building in the west. The building will be completed next summer and it is expected that the total cost of the building will be \$500,000 when finished.

—Aroha Star: A sample of a few heads of wheat affected with black rust was brought into town from North Dakota. The sample of straw and the head are from outward appearances good. The heads average 4 inches in length, but the hulls are empty and what little grain there is in the head is all shrivelled up. The straw is covered with black spots. It is said that thousands of acres are being burned down in the Dakotas.

PERSONAL

R. C. Ward, of Wetaskiwin, arrived in Edmonton last night.

Inspector Schickel of the N.W.M.P. was in Lacombe on Monday.

A. M. Stewart took a business trip down the line this morning.
